SKILLS

Libraries:	Languages:
-JQuery	-HTML
-ReactJS	-CSS
-Redux	-JavaScript

Frameworks:	Coding Techniques:
-Angular	
-Vue	-Git/Version control
-React Native	-Test-driven/behavior-driven dev.

Database Hosting:
-AWS Lambda
-Google Firebase   -Object-oriented

PROJECTS: HTTPS://AZHENG1991.GITHUB.IO/PORTFOLIO-WEBSITE_FINAL/WORK.HTML

Tic-Tac-Toe App:
Created a web app using JavaScript and JQuery that allows users to play their favorite childhood playground game: Tic-Tac-Toe! The game is fully functional on mobile through expo as well.

Mobile Chat App:
Developed a React Native chat app that allows users to send and receive data asynchronously to Google Firestore. This allows users to use the app offline, message others, send and take pictures, and share location details.

MyFlix App:
Created a web app that uses the MERN tech stack to fetch movie data from a custom API allowing users to register, log-in, add and delete movies from their favorites.

Meetup App:
Developed a progressive web app built using React through a TDD-approach. This app uses the Meetup API to fetch and display data about upcoming events, authenticating and authorizing the user through serverless functions hosted on AWS Lambda.

To-Do App:
Created a web app that uses the JavaScript library Vue to allow users to produce a list of to-do's, edit the list, mark as complete, and delete the to-do.

MyQuiz App:
Developed a web app that uses the JavaScript framework Angular to create a series of quizzes that test user's knowledge of COVID-19 and basic math.

Pokedex App:
Created a web app that uses JQuery to fetch Pokemon data in modal form from an online API.

WORK EXPERIENCE

The Bulfinch Company, Property Accountant
Sep 2019-Mar 2020
- Deposited a large volume of checks and wires on a daily basis in order to maintain healthy operational cash flow
- Analyzed and reported financials for 10+ commercial properties
- Performed data analytics using bank reconciliation software to obtain comprehensive picture of property bank accounts

State Street, Fund Accountant
Jul 2018-Sep 2019
- Led distribution and capital call events in a timely, organized manner such that client was satisfied with the level of service
- Compiled general ledger entries on short schedule with 100% accuracy
- Communicated with client to ensure wire instructions were kept up-to-date and journal entries were booked accurately

Urban Property Management, Property Accountant
Feb 2017-July 2018
- Created a systematic collections process to increase revenue by resolving tenant outstanding balances
- Performed budgetary forecasting using data visualization software
- Accounts Payable: coded and entered up to 200 weekly invoices for vendors who perform services on properties
